Please note: Offender positive test numbers are based on housing location at the time of testing and do not necessarily reflect the offenders current location.

Offender Population

**Medical Restriction:** Used to separate and restrict the movement of **well** persons who may have been exposed to a communicable disease to see if they become ill. These people may have been exposed to a disease and do not know it, or they may have the disease but do not show symptoms. Medical restriction can help limit the spread of disease.

**Medical Isolation:** For people who are **sick** and **contagious**, isolation is used to separate ill persons who have a communicable disease from those who are healthy. Isolation restricts the movement of ill persons to help stop the spread of disease.
