The health and safety of our staff, those in our care, and the community is our top priority.

The Department of Corrections began supporting Department of Health (DOH) response to COVID-19 on February 9, 2020 by providing members of the agency Department Incident Management Team (DIMIT). An advanced contingency planning team launched on February 28, 2020 to support the agency response. The department officially opened its Emergency Operations Center (EOC) at Headquarters in response to COVID-19, including representatives from health services staff, on March 2, 2020.

Due to the COVID-19 pandemic and need to provide more physical distancing within the state's correctional facilities, the Department has implemented a limited transfer of minimum custody and work release incarcerated individuals to their communities.

Department of Corrections Incarcerated Population Reduction Efforts (Lists are updated Monday-Friday. Lists are only updated if there are changes.)	
Type	List of Individuals
Commutation	Current as of 4/24/2020 
Rapid Reentry	Current as of 4/24/2020 
Work Release Furlough	Current as of 4/23/2020

Testing Among Incarcerated Housed in Prison & Work Release Facilities (Current as of Friday, April 24, 2020. Numbers are updated Monday-Friday) Screening and testing is conducted based on the guidance of the WA State DOC COVID-19 Screening, Testing, and Infection Control Guideline 			
Number of Tests Completed	Number of Negative Results	Number of Positive Results	Number of Pending Lab Results
305	270	14	21

Isolation and Quarantine Among Incarcerated Population (Current as of Friday, April 24, 2020. Numbers are updated Monday-Friday and will fluctuate daily.) Isolation: separating a symptomatic patient with a concern for a communicable disease from other patients. Quarantine: separating from other individuals those who are not showing symptoms yet have been exposed to an individual with a contagious disease. Federal quarantine and isolation currently apply to the following diseases: cholera; diphtheria; infectious tuberculosis; plague; smallpox; yellow fever; viral hemorrhagic fevers; influenza caused by new or re-emergent flu viruses that are causing, or have the potential to cause, a pandemic; and severe acute respiratory syndromes (which may include COVID-19).	
Number of Incarcerated Individuals in Isolation	Number of Incarcerated Individuals in Quarantine
77	995
