Messages: DMAPS Cabinet Secretary & WVDCR Commissioner

In 1877, the State of West Virginia opened its first prison in Moundsville. Many things have changed over the past 142 years, but the newly formed W.Va. Division of Corrections and Rehabilitation (DCR) has become a leader in safety, innovation, inmate education, and employee training. This past year, the accomplishments achieved by DCR are clearly outstanding.

The history of this agency has been rich in tradition, honor, and bravery. The professionalism and dedication to duty of our members have made me very appreciative as Cabinet Secretary for Military Affairs and Public Safety to be a part of what they represent.

On behalf of the men and women who make up DCR , we take pride in submitting the latest annual report.

Sincerely,
Jeff S. Sandy, CFE, CAMS
Cabinet Secretary

This fiscal year marked a major milestone, as the newly consolidated West Virginia Division of Corrections and Rehabilitation became a reality on July 1, 2018. As we work to integrate and manage the transition to a single agency, our unified goals remain the creation of a safer West Virginia through quality correctional practices, reduction of recidivism, preparation of offenders to become productive law-abiding citizens, and the recruitment of qualified and motivated employees.

The pay raises authorized by Governor Justice and the Legislature have been a meaningful acknowledgment of the work performed by our correctional staff, as well as an incentive for attracting new employees. Thanks to the innovative efforts of our newly established DCR Recruiting Unit, we have been able to fill critical vacancies, hiring more than 850 staff members this fiscal year. The three training academies from the former legacy agencies have been merged into a single developing curriculum, which is already resulting in cost savings, efficiencies, and targeted training, which, in turn, is enhancing the safety of our facilities for both staff and inmates. Significantly, we have seen a 50% reduction in inmate assaults during this fiscal year.

Other significant accomplishments this year include expansion of the free VINE (Victim Information & Notification) System to all ten regional jails. This life-saving system allows victims to anonymously check an offender's custody status by phone, internet, or use of a mobile app. With more than 7,000 inmates detained on various domestic violence charges last year, and with approximately 6,000 of them eventually being released, this victim-centered service plays a vital role in protecting the safety of both crime victims and our communities.

The first of several planned GOALS (Getting Over Addictive Lifestyles Successfully) Units is now operational at the Western Regional Jail. Founded upon the realization that the involvement of many individuals in the criminal justice system is related to their substance use disorders, these six-to-nine-month secure residential rehab units are being created in our regional jail facilities in partnership with the circuit courts. Medically assisted treatment is available, and follow-up focuses on recovery coaching, community treatment, housing, employment, and accountability.

The Department of Education's Office of Diversion & Transitions Programs continues to offer a wide variety of career technical programs, as well as standard Adult Basic Education classes and newly created innovative opportunities for inmates in our facilities. We have also partnered with Glenville State College, Ashland College, the Appalachian Bible College, to provide college programs through the federal Second Chance Pell Grants program. Our Bible College graduated its first class, and inmate ministers are now part of our growing moral rehabilitation initiative. Our inmate population continues to "give back," and more than 400,000 hours of volunteer service work was provided to communities across

Message: WVDCR Commissioner

the state this year. The nationally renowned Inside Out prison program was implemented at Pruntytown, which was also selected as a training center for Inside Out instructors. Upon completing a comprehensive and interactive training with our population, Inside Out Instructors will be certified to implement the program at their colleges and universities.

The success of our partnership with Catalyst Ministries and its WV Reentry Initiative, founded to provide services for men and women who are reentering society, speaks for itself on so many fronts. Men from Slatton Work Camp are participating in wide-ranging neighborhood revitalization projects in Charleston, with the goal of expanding to other areas. They receive mentoring and vocational training opportunities from dedicated licensed professional volunteers, along with the opportunity to improve their professional and personal skills through work and service. The Laotong Yoga Prison Project also continues to grow and thrive, as our populations experience personal growth from the benefits and life altering effects of yoga. Advanced teacher training is now also being offered, and we now have certified yoga instructors within our population.

One of our prime objectives is to raise public awareness about the important public safety interests that are protected by support for reentry initiatives. Sooner or later, the majority of our inmates, detainees, and prisoners will be released into society, and as corrections professionals, we are tasked with preparing these individuals, and their communities, for that eventual release. We are working to enhance our ties to communities by hosting “reentry simulations” where DCR staff and formerly incarcerated individuals help educate community members and stakeholders about the challenges and best practices for reentry. Simulations are also conducted by – and for – our inmate populations, and the United States Department of Justice selected St. Mary’s Correctional Center as the model and site for its national reentry training film.

Many changes have been implemented this past year, and more are certainly coming, but we have emerged from consolidation stronger, more efficient and better able to focus on development, reform and improved services. As I have said many times before, I believe our employees are some of the best at what they do. It is truly a privilege to work with the men and women of West Virginia corrections. We thank the Governor, the members of the Legislature, and the people of West Virginia for their continued support.

Sincerely,
Betsy Jividen
Commissioner, WVDCR

Accomplishments: **VINE & GOALS UNIT**

Enhanced VINE/VINE in Jails:

Enhanced VINE is a technological solution that provides victims complete control and gives them a choice for notification at one central location, with password security. This system provides notifications via the web, mobile, and advanced mobile app.

With over 7000 inmates detained due to various Domestic criminal charges, during the 2018 Fiscal Year, implementation of the VINE program within the ten (10) Regional Jails was critical for the victims to receive notifications. All Jails are currently on-line.

The goal of the Division of Corrections & Rehabilitation is to provide a state-wide notification system with the nation's leading automated life-saving information, regarding the custody status of offenders. This service was added at no cost to the taxpayers of West Virginia due to it being funded thru grants.

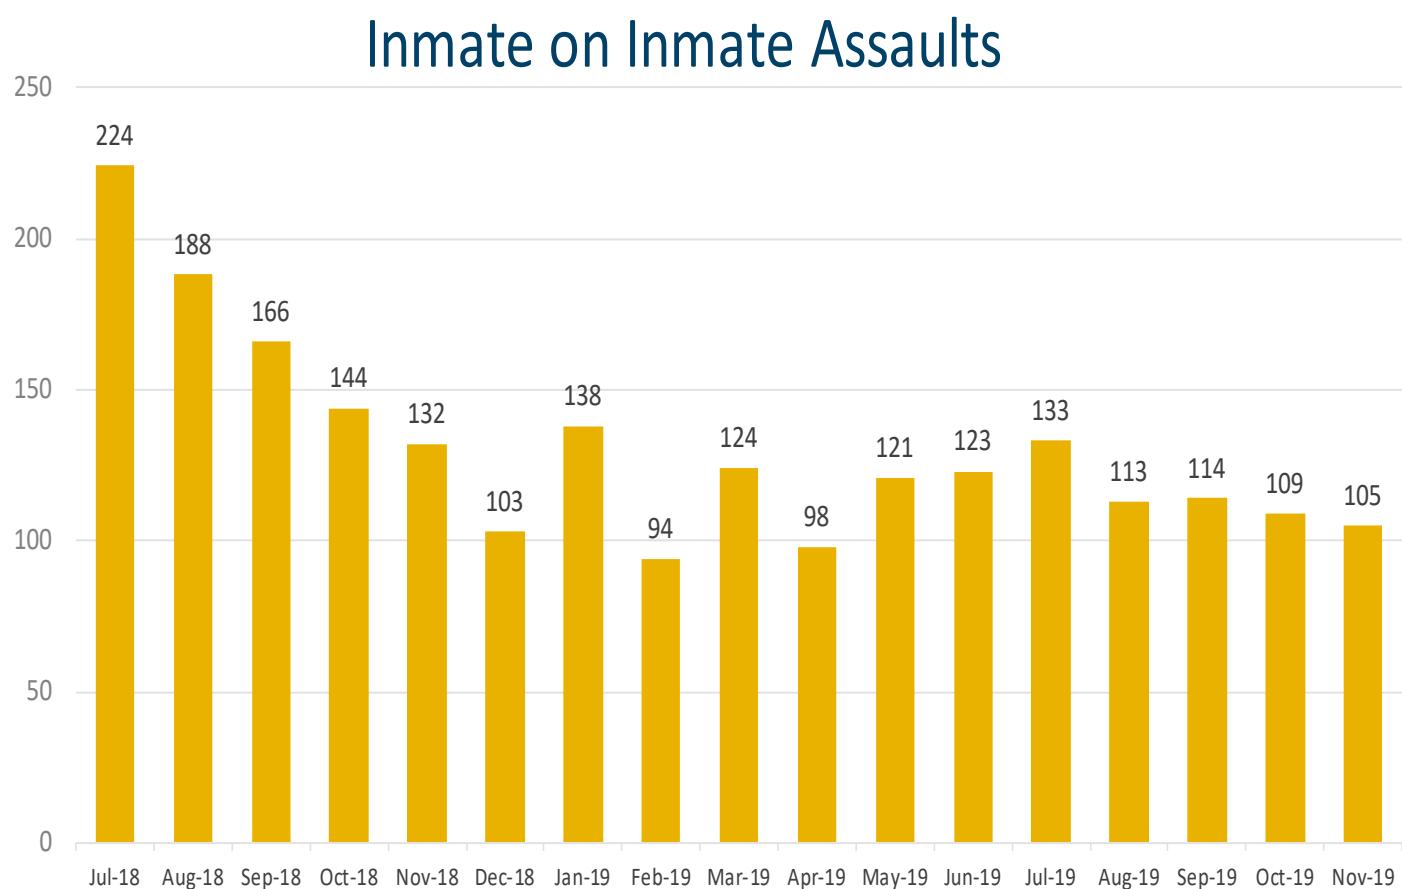

GOALS Unit:

A “GOALS” (Getting Over Addictive Lifestyles Successfully) Unit was established at Western Regional Jail in February 2019 and the second GOALS Unit opened in October 2019 at Northern Regional Jail.

These units share the intent of providing an alternative to courts who wish to commit offenders to rehabilitation units. They give Judges the option of a secure treatment environment. If the offender completes the program successfully, their prison sentence can be reconsidered or reduced.

Accomplishments: Staff Safety Assaults Decline

Accomplishments: *Basic Training Consolidation*

Basic Training Consolidation:

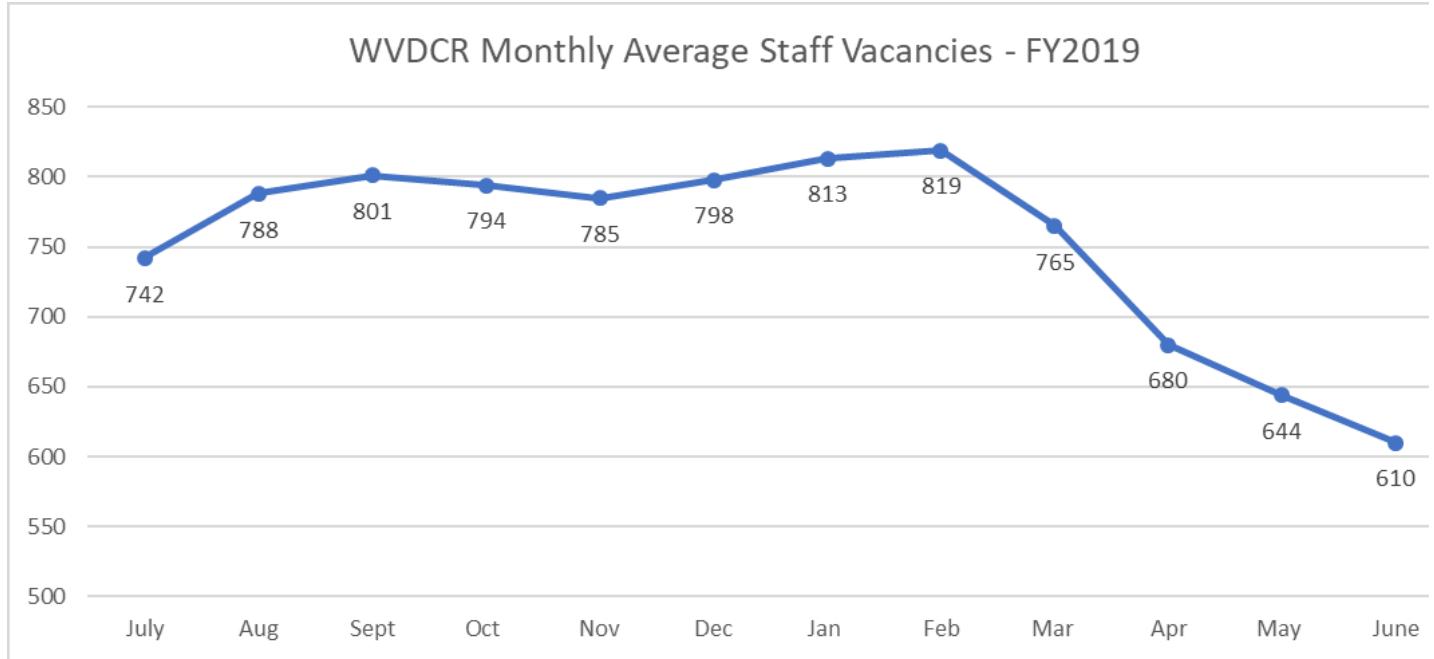

The DCR's Bureau of Training and Staff Development has consolidated the three separate training academies from the former correctional agencies into one curricula. This consolidation of basic training is an important step towards increased teamwork and utilization of resources, as well as creating safer facilities. Prior to consolidation, all three legacy agencies had massive basic training backlogs. During FY2019, 704 staff graduated from the consolidated DCR Academy. Also, in July 2019, the Academy switched to a "Pre-Service" Model of basic training. Now, new staff will receive the training they need to be successful, before working independently in a correctional environment. Over 250 staff have graduated from the new Pre-Service Academy.

Accomplishments: Recruiting

Recruiting:

In January 2019, the WVDCR established a team of Correctional Officers to represent the agency as Recruiting Officers. These Officers received specialized training from the WV National Guard to be recruiters and have conducted a concerted recruiting and advertising campaign to hire staff.

Accomplishments: Inmate Services & Activities

Inmate Services and Activities Department facilitated expansion of Reentry and Moral Rehabilitation Services and Activities. Malachi Dads and Hannah's Gifts are parenting programs where offenders meet in small groups and share letters and pray for their families.

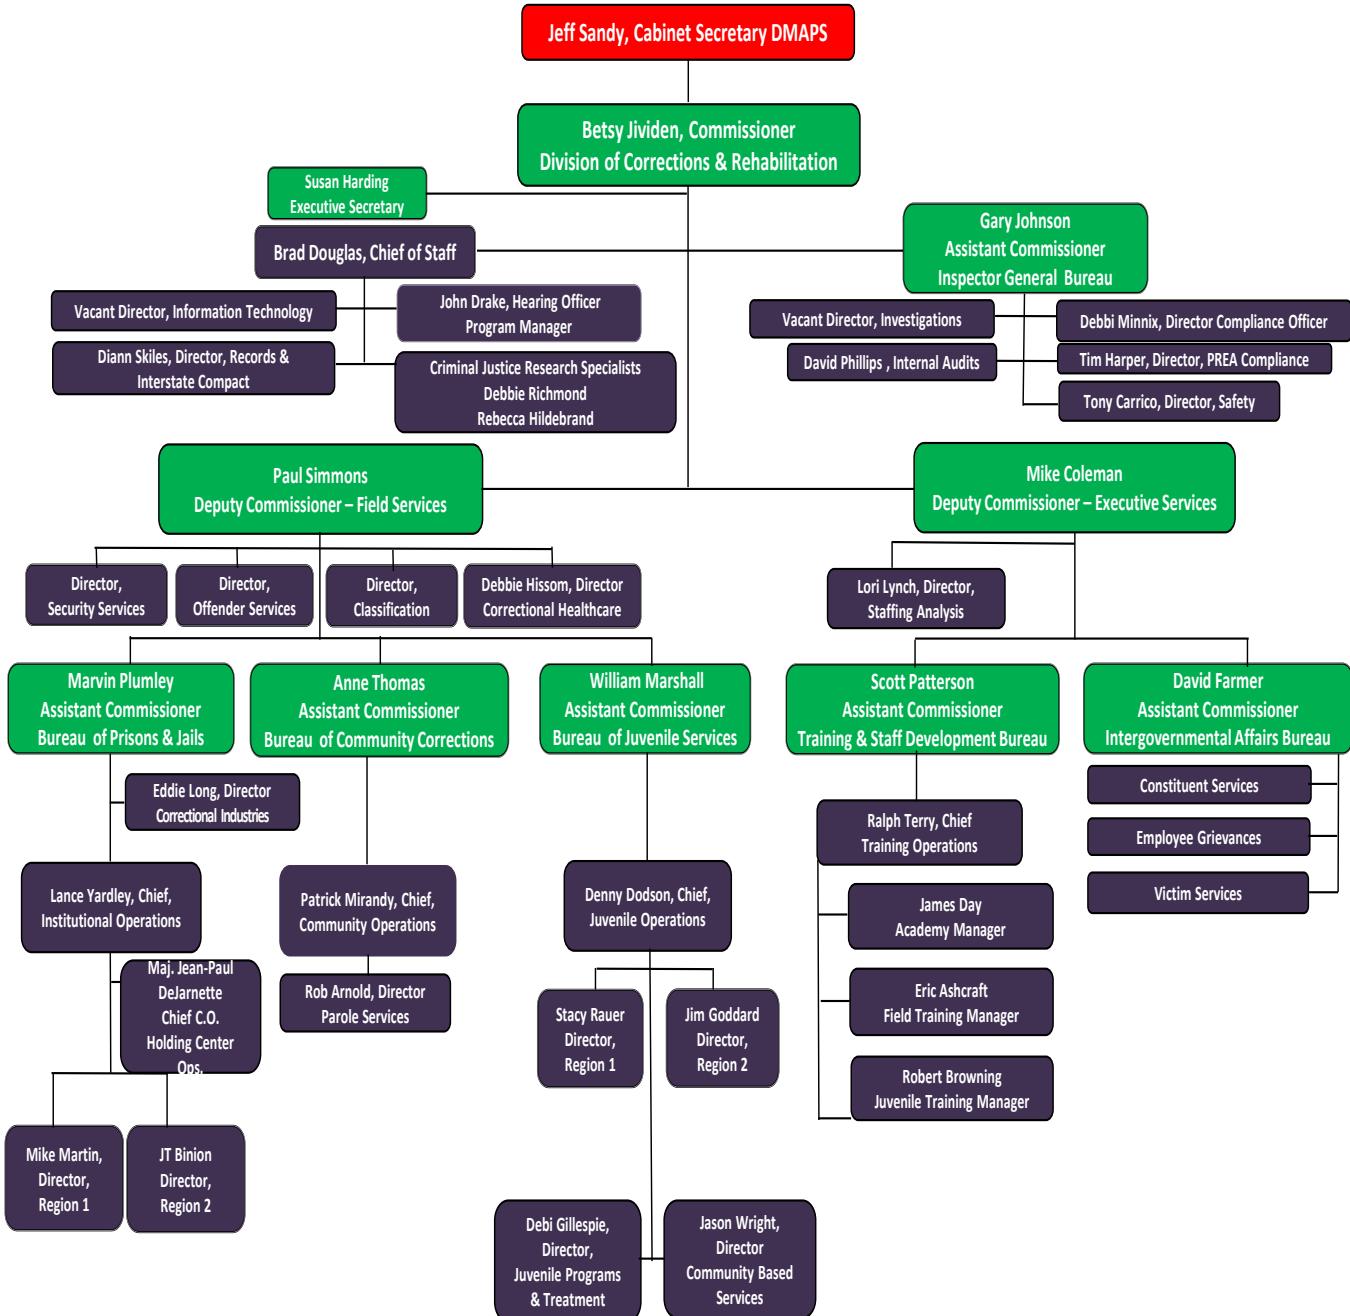

Continued Paws4Prisons Service Dog Program, the Shelter Dog Program and dogs in the Dementia Unit at St. Marys Correctional Center and Jail..

Giving Back with Heart Art Auction: Mission West Virginia hosted a “Giving Back With Heart” art show and art auction Tuesday, Oct. 16, 2018, at The Cultural Center in Charleston, WV. All of the artwork presented was created by incarcerated persons in the West Virginia prison and jail system. All of the proceeds raised went to support scholarships for children who have a parent who has been incarcerated or who have been in the West Virginia foster care system.

Parole Services Statistics: Caseload by County

The map below shows the number of clients supervised by Parole Services, by county at the end of FY 2019. Kanawha County had the highest case load, followed by Mercer, Cabell, Wood, and Berkeley Counties. Some reasons for these high numbers are the fact that Kanawha and Cabell Counties have high populations compared to the rest of the state, while Berkeley and Mercer border other states and supervise a large number of interstate compact cases.

On June 28, 2019, there were 4136 total clients under the supervision of WVDCR Parole Services. Of those 4136 clients it should be noted that 1275 were out of state cases.

Assistant Commissioner: Intergovernmental Affairs Bureau

Mr. David Farmer began his career with the WVRJA in February 2002 as the Director of Inmate services at the South Central Regional Jail in Charleston, WV. He was appointed as the Administrator of the Southwestern Regional Jail in Logan, WV in December of 2011. He remained in that position until being appointed as Director of the Academy/ Deputy Chief of Operations in August 2014. Mr. Farmer was appointed Executive Director of the Regional Jail and Correctional Facility Authority on June 1, 2015. In July 2018, Mr. Farmer was appointed Assistant Commissioner of Intergovernmental Affairs Bureau where he oversees Constituent and Victims Services, Grant Development and Monitoring and the Justice Reinvestment Act.

The Office of **Constituent Services** serves as a liaison between the WV Division of Corrections and Rehabilitation and the community by providing information to address concerns regarding conditions of confinement and delivery of timely information. The role of this office is to provide an avenue for the general public to obtain and express concerns on relative issues to the division. During FY19, this office answered approximately 425 calls/ emails regarding issues/concerns of offenders in WVDCR.

The Office of Constituent Services maintains **Employee Grievances** for the Division. The Administrative Hearing Examiner administers the Level I Grievance process for approximately 4000 employees that fall within the Division of Corrections and Rehabilitation. All Level I Grievance Hearing decisions are submitted to the Commissioner of the WV Division of Corrections and Rehabilitation, for review and final sanction. If the Grievant is not satisfied with the Hearing Examiner's response at Level I, the Grievant may appeal to the State Employees Grievance Board.

During the fiscal year 2018-2019, there were approximately eighty-eight Level I grievances filed; eighteen terminations/suspensions, thirteen written reprimands, twenty pay related issues, six scheduling disputes, twelve job position/classification related issues, twelve related to leave/time, and seven in relation to hostile work environment/EEO. Level I outcomes included nine granted, one granted in-part, sixty-six denied, two withdrew, four dismissed, one settled, four waived, and one filed directly to default.

The **Victim Services Program** offers direct services to victims of crime in all 55 counties in West Virginia for the West Virginia Division of Corrections and Rehabilitation. Carla Shirey, is the VSS (Victim Services Specialist) and provides services to victims by registering them in the OIS data base and registering them with the WV Victim Notification Everyday (VINE) notification program. The VINE program offers notification of the Offender's movement throughout the incarceration process of the WVDCR. The VINE Notification System is now offered in all WVDCR Facilities including 15 State Prisons and 10 Regional Jails. The VSS shares the OIS Inmate files with the Parole Board to provide Parole Notification. The VSS provides services by offering information regarding corrections and the parole process by communicating with victims daily by phone calls and direct contact by attending parole hearings. An important role provided to victims by the VSS, is attending parole hearings with victims. By supporting victims at parole hearings, the VSS is ensuring the victim's rights in the role of involvement of Community Justice within the WVDCR.

During FY19, Ms. Shirey has provided direct services to 691 victims of crime. Part of the services included attending 122 parole hearings with victims of all types of crime. While targeting the underserved population of victims of homicide in West Virginia, Carla has assisted 210 families of victims of homicide. In addition, the VSS has Victim Services Representatives (VSR's) staff on-site at WVDCR facilities that are also trained to offer direct services.

Mock Prison Riot: 2019

History of Mock Prison Riot

In its present form, the Mock Prison Riot (MPR) is a four-day comprehensive law enforcement and corrections tactical and technology tradeshow, including 44,000 square feet of exhibit space, training scenarios, technology demonstrations, certification and other workshops, a Skills Competition, and unlimited opportunities for feedback, networking, and camaraderie on a global scale. What sets the Mock Prison Riot apart from other industry events is the opportunity for practitioners and developers to actually see, touch, deploy, and offer immediate feedback on technologies under realistic conditions.

The first MPR was held on the grounds of the decommissioned West Virginia Penitentiary in Moundsville in 1997 and was executed as part of a federally-funded program of the United States Department of Justice (DOJ), National Institute of Justice (NIJ), Office of Justice Programs (OJP). The program's initial mission was to develop and deploy an active, broad-based national program to assist in the commercialization of innovative technology for use by the law enforcement and corrections (LEC) community. The Mock Prison Riot was born from the program's practice of deploying, demonstrating, and evaluating emerging and existing law enforcement and corrections technologies, as directed by the NIJ. Technology developers and practitioners were brought together, en masse, once a year at the decommissioned WV Penitentiary during the Mock Prison Riot to deploy products in demonstrations and tactical scenarios, thereby garnering immediate and formal feedback and saving time and money in the product development cycle. Over the years, there has been no other means, especially for the corrections industry, for such activities to take place.

In January of 2011, the NIJ announced that it would be eliminating funding entirely for the Mock Prison Riot. In 2012, the West Virginia Division of Corrections and Rehabilitation (WV DCR) and the West Virginia Corrections Training Foundation, a 501(c)(3) non-profit corporation, assumed joint responsibility for the Mock Prison Riot.

Mock Prison Riot: 2019

-2019 marked the third year for the Iron Operator Challenge, held in conjunction with the Mock Prison Riot. The Iron Operator Challenge is now sponsored by C2 Tactical Training and Consulting. The winner of the Iron Operator Challenge was FCI Elkton, Ohio from the Federal Bureau of Prisons. There were 17 workshops and lectures.

Federal Collaboration:

The WV DCR, the West Virginia Corrections Training Foundation, and the MPR continues to collaborate with the U.S. State Department, particularly the Bureau of International Narcotics and Law Enforcement (INL). In conjunction with the West Virginia Corrections Training Foundation, the WV DCR has advised the Senegalese Prison Service on how to conduct a scenario-based training event in the Sahel region of Africa. For 2019, the team has consulted with Mali, the next nation in the Sahel that will be hosting an MPR-type training event and Skills Competition.

The WV DCR and the MPR again hosted Acting Deputy Assistant Director Heather Merritt from INL for the 2019 event. DAS Merritt toured the facility and observed workshops, training, and the Skills Competition for the second consecutive year. She met with various representatives of the WV DCR, including Commissioner Betsy Jividen, who participated in a forum regarding women in corrections.

The Mock Prison Riot has been the only event of its kind in the world over the past 23 years, and has contributed millions of dollars to the Northern Panhandle's economy. The event places the State of West Virginia, the WV DCR, and the West Virginia Corrections Training Foundation on the world stage and at the forefront of training and technology in the corrections industry.
